ANNOUNCEMENT ON OPENING OF ITD LAB FOR RESULT ENTRY

We would like to inform that the Information Technology Division (ITD) has reserved the ITD Training Lab 1 (previously known as ITD Smart Lab), from 26th May 2003 until 5th June 2003, to be used by the lecturers for keying-in of examination result for semester 3, 2002/2003 session. We are providing this service to accommodate lecturers who are facing difficulties to key-in their examination result due to uncertain shortcomings, such as networking service is down at the Kulliyyah or lecturers’ PCs are not functioning as expected.

We would also like to inform that we are not providing fulltime technical assistance throughout the opening hours of the lab. As such, we would be very grateful if the lecturers could approach the Help Desk counter at ITD Level 1 or call the Help Desk number at 2222 in case of any assistance or inquiries during their stay in the lab. Please take note that the ITD Training Lab 1 is located at ITD Building, Level 1. The lab will be opened on working days only and during office hours.

Thank you.
